Violet Sapphire Bracelet

1 Violet Sapphire 4.64 carat
86 Diamond 2.46 carat

Set in 18K Yellow Gold

The violet sapphire is a rare gemstone, even more so than its blue cousin, but no less beautiful and alluring. The color violet is complementary on every skin tone and can be worn in any season. With this in mind, we designed this bangle with a simple aesthetic, making it versatile enough to be worn with a white shirt and jeans or dressed up for a special occasion. This bangle is perfect for those who appreciate the beauty of rare gemstones and want a versatile piece of jewelry that can be worn on any occasion.

Fun Fact: There are no red Sapphires. None. Even though Sapphire comes in every color of the rainbow; yellows, orange, pinks, green... there is no red. That's because red corundum (what Sapphire is made from) is actually called Ruby
